

CDC Diabetes Translation Conference 2004

**“Diabetes Prevention and Control:
Together We Can Improve Lives”**

May 11-14, 2004

**The Fairmont Chicago
200 North Columbus Drive
Chicago, Illinois 60601
Phone (312) 565-8000**

Centers for Disease Control and Prevention

In partnership with the
Diabetes Council and Chronic Disease Directors

Conference Theme

The CDC's Division of Diabetes Translation (DDT) Conference 2004 theme is “Diabetes Prevention and Control: Together We Can Improve Lives.”

Conference Goals

- \$ Explore science, policy, education, program planning, implementation, and evaluation to enhance public health approaches and strategies to prevent and control diabetes.
- \$ Increase knowledge and awareness of successful, cost-effective, public and private diabetes programs.
- \$ Present innovative strategies to increase awareness of diabetes and how to prevent its complications.
- \$ Provide opportunities for skill-building, information-sharing, and networking.

Attendees

CDC’s Diabetes Translation Conference 2004 will bring together a wide range of local, state, federal, and territorial governmental agencies and private-sector diabetes partners. Our main constituents are the state-based diabetes prevention and control program (DPCP) representatives, their partners, and the following:

- \$ Federal, state, and local public health professionals
- \$ Managers, directors, and executives from affiliated health professional associations
- \$ Health professional associations and consultant partners in prevention and control activities and programs
- \$ Managers, directors, and executives from health management organizations
- \$ Physicians, nurses, nutritionists, dietitians, pharmacists and health educators
- \$ Health professionals other than government
- \$ Representatives from special interest groups and industry
- \$ Academic and research staffs from educational institutions
- \$ Undergraduate and post-graduate students in health-related fields of study

Presentations — Formats

Plenary Presentation: A general session for all attendees presented by a keynote speaker or panel of presenters

Concurrent Presentation: One of several presentations held during a session period includes oral presentations, round table discussion groups, workshops, and networking sessions.

Poster Presentation: Posters will be located on the third floor . Presenters will be available to discuss their posters at scheduled times.

Roundtable Presentation: Allows discussion of similar topics in the same time period. Participants have the opportunity to ask questions and acquire more detailed information.

Presentations — Categories

The conference sessions are presented in categories that address specific policy issues and programs that contribute to diabetes control and prevention. Seminars are grouped in main categories that are abbreviated in the agenda as follows:

Community Intervention (CI)	Health Communication (HC)
Health System (HS)	Evaluation (EV)
Research (RE)	Surveillance (SV)
Special Topics (ST)	

Please note the two-letter code under each of the seminar categories if you are interested in a particular topic area. These presentations focus on strategies that

- \$ influence the level and quality of diabetes care in health systems;
- \$ involve and inform communities;
- \$ assess early detection and screening programs;
- \$ provide process, impact, and outcome evaluations;
- \$ discuss program coordination and partnership experiences.

Registration and Information

Visit www.signup4.com/CDC/Diabetes2004 to register. On

On-site registration begins Monday, May 10, 4 p.m. – 8 p.m., through Thursday, May 13. See final agenda for hours of operation for conference days. CDC/DDT staff and contractors are available during conference hours to assist participants and to answer questions about registration, conference sessions, local events, and transportation.

Special Activities

A sponsored welcoming luncheon will be held on Tuesday, May 11, in the exhibit/poster area. All conference participants are encouraged to take this time to view the exhibits and posters.

A reception will be held Wednesday, May 12, 6:30-9:30, at the Museum of Science and Industry for all conference participants. Transportation for this activity will be announced.

Join us for the the physical activity opportunities each morning, “Step Chicago Style.” Aerobics classes will be held each morning of the conference (Exact location will be in final agenda). The Fun Run/Walk/Stroll participants will gather in the hotel lobby each morning.

Check at the registration desk for any changes in the activities scheduled.

Speaker Ready and Press Room

Speakers may prepare their materials and rehearse their presentations on the B-2 Level, Royal Room. Check at registration for the hours of operation. The room will have standard audiovisual equipment. This room will also be used as the press room.

Exhibits and Poster Sessions

Exhibits and poster presentations will be located on the B-2 Level, Imperial Ballroom. Check the agenda for the best time to view these presentations.

Message Board

A message board will be located in the conference registration area. Please check regularly for messages.

Personnel

Visions USA, Inc., the conference contractor, has staff members available to assist you with any needs you might have throughout the conference. CDC/DDT staff will be stationed at the registration and information desks as well as in each meeting room. Look for the staff ribbons on name badges. These staff and the CDC/DDT Conference Planning Committee members will be available to guide you between sessions, assist you with registration, accommodations, messages, logistics, and other special needs or questions.
